Profile

Experienced Chief Technology Officer (CTO) and expert in organizational effectiveness and efficiency. I have a strong focus on results, technology strategy, innovation, outsourcing, and team leadership. Successfully established and managed my own offshore company, enabling organizations to reduce development costs by 70%. Proven track record of delivering outstanding results through high-performing teams and cutting-edge technologies. Implemented LLM models to enhance performance. Seeking a challenging role to leverage skills and experience in driving growth and success by harnessing the power of my proprietary offshore company.

Work Experience

CTO

Prodago.com

📅 07/2022 - present 📍 MONTREAL, CANADA

- Successfully implemented and integrated LLMs to facilitate comprehension of regulatory guidelines, providing valuable assistance
- Led and executed the product launch, securing the first major client
- Set up and managed an offshore development team, reducing costs by over 50%
- Implemented DevOps methodologies on Azure infrastructure, resulting in enhanced operational efficiency
- Achieved a remarkable 50% reduction in monthly development expenditure
- Ensured clients' consistent understanding and application of governance practices, as an integral part of Prodago's mission

Enterprise Business Agility Consultant

John Hancock

📅 06/2021 - present 📍 BOSTON, USA

- Led the development and execution of strategic initiatives to drive enterprise-wide business agility and resilience within a rapidly changing digital environment.
- Implemented innovative work methodologies and provided senior management with comprehensive training to achieve optimal performance outcomes.
- Achieved a significant 28% increase in ROI on invested capital, a 2x realization of benefits, a 30% reduction in requests for minor enhancements, and a 3x improvement in OKR attainment.

Founder and CEO

Infique Business Solutions

📅 11/2022 - present 📍 LAHORE, PAKISTAN

- Founded and led an offshore shop with a specialty in reducing development costs for Prodago and other esteemed clients by over 70%
- Secured top-notch full-stack development and UX talent, maintaining a high standard for hiring and retention
- Demonstrated proficiency in cloud platforms and technologies, expertly leveraging this knowledge to deliver cost-effective solutions to clients.

Co-Founder and CTO

Infique Social Enterprise

📅 01/2021 - present 📍 TORONTO, CANADA

- Co-founded a startup with a focus on delivering SAAS products for non-profit organizations, driving organizational growth and success.
- Developed a highly effective product, from conception to successful implementation, resulting in consistent monthly recurring revenue.
- Led the development and technology strategies to enhance the organization's performance, ensuring consistent achievement of goals and objectives.

Work Experience

Director & Head of Business Agility COE Royal Bank of Canada

📅 06/2018 - 06/2021 📍 TORONTO, CANADA

- Successfully led the transformation of RBC, enhancing resilience and adaptability in a rapidly evolving digital landscape
- Facilitated the adoption of new prioritization and work visualization practices among 20% of RBC executives within a period of two years, achieving remarkable success
- Implemented agile methodologies and practices, resulting in productivity gains exceeding 50% in four key business units

FICC Architect & Agile Adoption RBC Capital Markets

📅 06/2017 - 06/2018 📍 TORONTO, CANADA

- Optimized development activities to increase efficiency by 35%
- Assembled and led a proficient team that successfully integrated Jira with Jenkins, Ansible, ELK stack, and automated testing tools
- Provided guidance and coaching to leaders within Fixed Income IT, ensuring their adoption of Agile practices
- Streamlined operations by decreasing downtime and manual efforts for 20 applications by 25%, resulting in a faster time to market.

Director & Regional Head of FX Tech RBC Capital Markets

📅 10/2017 - 06/2017 📍 TORONTO, CANADA

- Directed and managed a \$22MM budget, emphasizing cost optimization and resource allocation
- Achieved a substantial cost savings of \$5MM in vendor expenses through effective management
- Generated an additional \$3MM in recurring revenue gain by increasing deal flow in EM FX forwards
- Successfully implemented a modern technology stack, replacing outdated infrastructure.

Head of FX Technology BMO Capital Markets

📅 01/2014 - 02/2016 📍 TORONTO, CANADA

- Oversaw a team of 60+ professionals in the IT department and managed a yearly budget of \$17MM
- Decreased FX Operations costs, amplified recurring revenue, and automated risk management through strategic management.
